

URBAN LEGENDS & MYTHS
(How The African American Community Is Intentionally Deceived)

1. Bush is going to start the draft; (false) the truth is Democrat Charles Rangel from New York along with a fellow democrat introduced the bill, but voted against it when it became a political liability.

2. During the Democratic Party's 2004 convention Rev. Al Sharpton gave a speech in which he was widely quoted as saying, "The Republicans promised us forty acres and a mule and we still haven't gotten it." The truth of the matter is that when Vice President Andrew Johnson replaced Abe Lincoln, Mr. Johnson began to destroy much of what was gained during Lincoln's presidency. Andrew Johnson was a Democrat and he said, "Black people were inferior to whites and unready for equal rights." So not only did he stand in the way of the 40 acres and a mule, but also he turned back the clock on many of the rights the Republican Party fought to give to African Americans.

3. John Kerry and the Democrats during the 2004 campaign kept saying the Florida vote was stolen in 2000, when they knew that CNN, University of Chicago, and seven other newspapers paid millions of dollars to recount the vote, and discovered that Bush had won the election fair and square. (Elder Yuille will send a copy of the news story to those who request it.)

4. During a Jennifer Granholm campaign stop in Detroit during the at Straight Gate Church, the chair of the Democratic National Committee reminded the crowd that when the Black man was dragged to death in Texas Bush was Governor. What he failed to remind them of was that when Martin L. King was killed in Memphis, a Democrat was Governor, when the four little girls were killed in Birmingham, Ala. A Democrat was Governor, when Emmett Till was killed in Mississippi a Democrat was a Governor, and Medgar Evers was killed in Mississippi a Democrat was governor.

5. A Flyer that was distributed in the plants in Ypsilanti area. It was a picture of people getting hosed in the south during civil rights battle of 60's. The flyer said look at what Republican's do to Blacks. (False) When in fact those southern sheriffs were all Democrats in the picture.

6. One of the cries of the Democrats was that during the 2000 election many voters faced voter suppression. But after three years the Civil Rights Commission has not found one case of voter suppression that could be prosecuted.

7. Clinton economy increased Black middle class. (False) According to a study by the University of Michigan the Black middle class shrunk during Clinton.

8. Jessie Jackson and many other individuals accused the Republicans of saying that Blacks were only 3/5th equal to Whites. But the truth of the matter is that the Republicans wouldn't let the democrats exploit their slaves by declaring them worth one whole vote when it comes to counting for representatives in the house of Representative, when they won't let them be counted as a human being under any other circumstance.

9. Voting Rights laws of the 60's going to be cancelled by Republicans. (False) The Democratic Black Caucus stopped the voting right law from becoming permanent. (In America in Black & White booklet the facts of this is found.)
